Received and published: 28 March 2020

The manuscript is well-written and presented. It is a detailed work and I have no comments. The subject is limited to Iran, so the applications might be limited to this country, but it is also a useful contribution as methodology which can be applied elsewhere.

Interactive comment on Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2020-48>, 2020.
