First of all, thank you for your approval and suggestions, which will greatly improve the quality of the article. And I will respond to your suggestions one by one. (1) Regarding the conclusion part, we will modify it with your suggestions; (2) The language in the article has been touched by relevant professionals, but there are still some errors and ambiguities in expression, and we will further modify it; (3) We are sorry for my carelessness, the photo on line 285 should look like Figure 8; (4) It is indeed necessary to join the relevant literature for discussion and comparison to highlight the novelty and
persuasiveness of the article.
