Daniela Molinari, PhD

*Natural Hazards and Earth System Sciences*

Dear Dr. Molinari,

Thank you for accepting for publication our manuscript (nhess-2021-42), entitled “Effective earthquake early warning systems: Appropriate messaging and public awareness roles”.

Based on your request, we have added the data availability section according to the manuscript preparation guidelines. Our manuscript is complete and includes the title, authors and their affiliations, abstract, tables, and figure and table captions. To promote our work, we have also provided a 500-character short summary.

We would like to thank you for the opportunity to publish our manuscript in *Natural Hazards and Earth System Sciences* as a “brief communication”.

Please feel free to contact me with any questions or concerns you may have.

Sincerely,

-----
