

Dear NHESS editorial office,

I thank you for your feedback. As suggested, have updated the following changes to the updated manuscript:

- I have included the same phrase in the caption of Figure 6: “Map data: ©Google Earth 2021” to the caption of Figure 5.
- I have included the suggested statement to the caption of Figures 2 and 3.
- I have made sure that my name, Juan Camilo Gomez Zapata appears as the corresponding author both in the manuscript records as well as in the pdf.

Thanks a lot for your time.

With deep gratitude,

Juan Camilo Gomez Zapata
