Paper Title: Aso volcano: estimating the probabilistic likelihood of a future Aso4-scale eruption from stochastic uncertainty analysis of volcanological evidence using importance sampling

## Comments and suggested revisions

### Review 1

I do not have a particular comment on the manuscript. However, I am amazed with its very international authorship

### Review 2

The contents are comprehensive. Please check the equation writing style.

## Paper Format

1) All items as below are included within the first page.

(title, authors' name, affiliation, email address of Corresponding author, abstract, keywords)

Yes

2) You use a template provided (header, blank or space)

Yes
