

## RESPONSE

**Comment 1.** Please note that single tables` panels with their own captions are not possible in the final version. Please adapt them according to our guidelines:<https://www.natural-hazards-and-earth-system-sciences.net/submission.html> (section "Figures & Tables").

**Responses:** Thank you so much for your consideration in making our manuscript best. Taking this comment into consideration I have made two changes as follows:

- Line 182: Table 2 is updated by removing captions from the table
- Line 357: Table 3 is updated by removing captions from the table, and added captions on the title of the table 3

**Comment 2.** Your tables contain coloured cells or/and coloured values. Please note that this will not be possible in the final revised version of the paper due to HTML conversion of the paper. When revising the final version, you can use footnotes or italic/bold font.

**Responses:** Thank you so much for highlight this point. Taking this comment into consideration I have made three changes as follows:

- Line 559: Table 7 is updated by removing colour code row and I have converted this table into tabular format (which was earlier in image format)
- Line 570:Table 8 is updated by removing colours from row 1 (Risk status).
- Line 577: Table 9 is updated by removing colours from row 1 (risk status) and I have converted this table into tabular format (which was earlier in image format). As I converted this figure (line 577) into table. It become table 9 and Figure 7 (line 581) becomes figure 6.

**Comment 3.** Supplement has been removed, as it did not contain additional materials, but figures from the manuscript. Please note that you will be asked to provide these materials at other stages of the review process.

**Responses:** I would like to highlight here that. Taking this comment into consideration I have provided the following as supplement, please feel free to format it as per the requirement of the journal

- Line 496 to 542: Table 5 and 6 are proposed survey form. I have provided the excel sheet of the complete survey form in the supplement during this submission
