Dear Editor,

Please find enclosed the final files after editorial corrections of our work entitled 'The quest for reference stations at the National Observatory of Athens, Greece'.

We opted for 2 appendices, A for the tables and B for the figures, so those have been moved from the Supplement. We have also created our Xenodo doi-references repository with an excel file including all tables and downloadable versions of the plots.

We would like to thank you once more for shepherding us through this process.

Yours sincerely, for the authors,

Olga-Joan Ktenidou
