

Dear Editor,

We thank you very much for your positive feedback and for approving our manuscript for publication. We carefully addressed all the minor issues that were pointed out:

1. We ensured consistent notation of all units throughout the manuscript.
2. We added the units (degrees) to the slope angle in the color map legend of Figure 2.
3. We indicated the correct units for ξ and τ_0 in the headers of Figures 3 and 7.

We are grateful for your support and the opportunity to contribute to the NHESS special issue.

Sincerely,
Michael Neuhauser
